

OCS Vassal Module Keyboard Shortcuts

by *Chip Saltsman*

Select multiple pieces: hold the mouse button down and drag a box around the desired pieces with your mouse cursor.

Select individual pieces from a group: shift-click each desired piece with your mouse.

Deselect pieces from a group: hold down the ALT (or, on Mac OS X, the Option key) while clicking on the pieces to be removed from selection.

Select then “up arrow” moves a unit to the top of its stack

Select then “down arrow” moves a unit to the bottom of its stack

Select then “left/right arrow” will move the selected units up or down one position at a time.
